Cahuilla Strikes Back!

Crews Mop Up the Tammies

Congratulations to Every Single Crew for outstanding performance in the field today! After moving swiftly through the 11 miles Monday and 11 miles Tuesday, we have reached the thick groves of Tamarisk, where lurk the thick stands. As of the end of today, you are very near to reaching our overall goal for the project! All we need to do is push forward

this morning and then after that everything we do is simply a part of continued cheerful service to the United States Forest Service. Congratulations Manti-La Sal Participants and Thank you for everything you've done for us!

Woohoo! \$\$\$

Congratulations Manti-La Sal! The LIVE Auction alone brought in \$3,123, and I saw some pretty good price items in the silent auction as well! Thank you for your support of our program, and we look forward to presenting the "profit" checks to our generous host school!

Thank you to everyone for your cooperation with local media officials today, especially to our youth staff who performed admirably in the face of difficult questions (like what does the Five in Arrow-Corps5 mean) and touring the site. A huge thank-you goes out to the kitchen staff for making the beautiful and delicious watermelon pictured above. At right, Jake Wellman is features attempting to chainsaw a

rock into fourths. And at left the Lieutenant Governor inspires our participants. Thanks for your support!!!

A note from Transportation...

Planning would like contingent leaders, or anyone arranging their travel through our services, to check the transportation postings after dinner tonight outside of the headquarters library area inside the school building.
